The Strictly Elvis Show

Website Audit & Phase 0 Proposal

Prepared for: Alan Graveen
Prepared by: Learned Geek Consulting
Date: February 2026

Current State Analysis

Critical Issues Preventing Search Visibility

1. Zero Local SEO Presence

- No Google Business Profile (primary reason for zero search visibility)
- No location information anywhere on site (mentions "Wisconsin" but no cities)
- No schema markup identifying this as a local business/performer
- Missing from Google Maps and local business directories

2. Branding Inconsistency

- Site header/footer shows "The Stricly Elvis Show" (missing 't')
- Domain and some content shows "The Strictly Elvis Show" (correct)
- This inconsistency confuses search engines and looks unprofessional

3. Missing SEO Fundamentals

- No meta descriptions on any page
- Generic page titles ("The Strictly Elvis Show" on every page)
- Zero alt text on images

- No keywords targeting "Elvis tribute," "Elvis impersonator," etc.
- Missing structured data (schema.org markup)

4. Technical Problems

- Empty blog section (dead weight hurting credibility)
- "No upcoming events" displayed prominently (appears inactive)
- Broken or placeholder image links
- Multiple phone numbers listed inconsistently (262-293-9805 and 414-467-5761)
- No SSL certificate indicator visible
- Poor mobile optimization

5. Content Gaps

- No service area definition (Waukesha? Milwaukee? Madison? Statewide?)
- No video content embedded (critical for entertainment business)
- Testimonials lack proper formatting and attribution
- No clear call-to-action or booking process
- Missing information about pricing, packages, or availability

6. Platform Limitations

- Built on GoDaddy Website Builder (limited customization)
- Template-based design restricts SEO control
- Cannot implement advanced features without platform migration
- Difficult to add custom functionality

Phase 0: Critical Foundation ($450)

Goal: Get you visible in search results and fix immediate credibility issues

Deliverables

1. Google Business Profile Setup & Optimization ($150)

- Create and verify Google Business Profile
- Add business information, service areas, categories
- Upload photos and initial content
- Set business hours and contact information
- Configure for maximum local search visibility
- **Impact:** Should appear in local searches within 7-10 days

2. Branding Consistency Fix ($50)

- Correct "Stricly" to "Strictly" throughout entire site
- Standardize phone number display
- Ensure consistent business name across all pages
- **Impact:** Professional appearance, clearer brand identity

3. SEO Foundation Implementation ($150)

- Add unique meta titles and descriptions to all pages
- Implement location-specific keywords (your target cities)
- Add alt text to all images
- Create basic schema.org markup for Performer/Local Business
- Fix any broken links or technical errors
- **Impact:** Search engines can properly index and rank your site

4. Content Priority Fixes ($100)

- Add service area information (cities you serve)
- Remove "No upcoming events" placeholder or add actual events
- Optimize existing testimonials with proper formatting
- Add clear call-to-action buttons
- Improve mobile responsiveness where possible within GoDaddy limits
- **Impact:** Visitors convert to inquiries more effectively

What You'll Receive

- **Comprehensive Audit Report** documenting all current issues
- **Google Business Profile** fully activated and optimized
- **Updated GoDaddy Site** with SEO fundamentals in place
- **Performance Baseline** showing before/after search visibility
- **Recommendations Report** for future phases

Timeline

- **Week 1:** Audit, Google Business Profile setup
- **Week 2:** GoDaddy site fixes and SEO implementation
- **Week 3:** Testing, optimization, and delivery of reports

What Happens After Phase 0?

This initial phase addresses critical visibility issues and creates a foundation. Based on your goals, we can then discuss:

Phase 1 - Content Development ($1,000-1,500)

- Location-specific landing pages
- Event calendar integration
- Video gallery implementation
- Blog content creation
- Expanded testimonials section

Phase 2 - Platform Migration & Custom Solution ($3,000-5,000)

- Custom-built site (no GoDaddy limitations)
- Full design and technical control
- Advanced booking/inquiry system
- Professional photo/video galleries
- Optimized for search engines from the ground up
- Hosted on reliable, high-performance platform

Investment

Phase 0 Total: $450

Payment terms: 50% upfront, 50% upon completion

Why Start With Phase 0?

Immediate Impact - Google Business Profile alone can get you showing up in searches within days

Low Risk - Smaller investment to prove value before committing to larger work

Foundation Building - Everything we do here carries forward to future phases

Quick Wins - You'll see measurable improvement in search visibility

Informed Decisions - The audit report will help you understand exactly what your site needs

Next Steps

1. Review this proposal
2. Provide GoDaddy credentials (as discussed)
3. Schedule brief call to confirm service areas and priorities
4. Sign off on Phase 0 scope
5. Begin work immediately
